FREQUENTLY ASKED QUESTIONS

ACADEMIC ADVISING

EXPLANATION OF STUDENT SCHEDULE

Question: What is a credit hour?
Answer: A credit hour, sometimes called a semester hour, refers to the number of credits you receive toward graduation for each class you complete successfully. Credit hours are determined by the number of hours per week you are in class for that course. For example, a class meeting from 9 - 9:50 a.m. three days a week, generally will earn three credit hours.

Question: What is the difference between a full-time and part-time course load?
Answer: Morton defines a full-time load as 12 or more credit hours. A part-time load is anything less than 12 credit hours.

Question: What is the difference between the Associate of Arts or Associate of Science degree and the Associate of Applied Science degree?
Answer: These degrees all require a minimum of 62 credit hours but have different purposes. The Associate of Applied Science (A.A.S.) degree prepares students for entering a career field (e.g. Law Enforcement, etc...), while the Associate of Arts (A.A.) and Associate of Science (A.S.) degrees satisfy the requirements for the first two years of a baccalaureate degree. Therefore, A.A. and A.S. degrees require a greater number of general education courses.

Question: What is a certificate?
Answer: A certificate consists of career courses in a chosen program. Students who already have a degree may decide to pursue a certificate when changing fields.

Question: What courses will meet the requirements for a degree or a certificate?
Answer: The College Catalog lists all requirements for degrees and certificates by program. You must familiarize yourself with the Catalog, since this document is an agreement between you and the College.

Question: Does Morton offer courses over the Internet?
Answer: Yes, several. Visit www.morton.edu for more information on distance learning opportunities.

Question: How many courses should I take?
Answer: This can only be answered by the student. In general, students who work full-time may prefer to take fewer classes than students who do not work or work part-time. You need to judge how best to balance your work schedule with your academic load, social life and other responsibilities.

Question: How much time will I be expected to study for each course?
Answer: This varies among individuals. A good suggestion is that students should spend two to three hours outside of class for each hour in class per week. Therefore, a full-time student should allow 24 to 36 hours of study time per week.

Question: How can I prepare to take the placement exam?
Answer: Students can access testing study guides through the “Quick Links” by selecting “Study Guides”. This will link directly to the page where the Accuplacer, Math 075 and Geometry study guides can be downloaded and printed.

Question: How do I know what English and math courses I should take?
Answer: Students who plan to take credit courses at Morton must take Morton’s placement tests. However, under certain conditions, you can have this requirement waived. For example, if you received a sub-score of 18 in the Reading & English component on your ACT or if you have completed English 101 with a grade of ‘C’ or better at another institution.
Question: If I test into English 082, 084, 086 or 088; can I take other courses?
Answer: Speak with an advisor to determine which courses, if any, you are able to take in addition to English developmental courses.

Question: I have taken classes at another college or university. Will they count at Morton?
Answer: To find out, you must have your transcript evaluated. The evaluation process consists of three steps:
• Have an official sealed transcript mailed to Morton from your former college or university.
• Contact your former college or university’s Registrar Services directly to start the process.
• Complete a Request for Evaluation Form with an Academic Advisor.

Question: How much does a Morton transcript evaluation cost?
Answer: Morton does not charge a fee for evaluating a transcript.

Question: I have a degree from a college or university in another country. How will it transfer?
Answer: To receive credit for coursework from another country, the foreign transcripts must be evaluated by Educational Credential Evaluators (ECE) in Milwaukee, Wisconsin. A form with instructions is available in the Advising Department. Refer to the ECE form for appropriate foreign transcript evaluation fees. Remember to complete a Request for Evaluation Form and list Morton College as the transfer institution.

Question: How do I calculate my GPA?
Answer: Divide the grade points earned by the number of hours taken. Grade points are figured by multiplying the number of credit hours of each course by the grade earned. (Grades A to F are worth from 4 to 0 points).

Question: How do I raise my GPA?
Answer: You must obtain higher grades in your courses. You may also re-take courses in which you have received a low grade. If you re-take a course at Morton, the higher grade will count in your GPA, but both grades will continue to show on your transcript. In other words, replacing a D or F grade with an A, B, or C will raise your GPA more quickly than taking new courses. Another way to achieve academic success is to plan your course load carefully to enable you to be more successful and to seek tutoring assistance from the Individual Learning Center. The Individual Learning Center can also help you to develop study skills strategies.

Question: Can I eliminate F grades on my transcript?
Answer: F grades remain on a transcript but can be removed from the grade point calculation. Students may petition, one time only, through the Forgiveness Policy explained in detail in the Catalog. If you have 15 hours or less of F grades, you must complete 15 consecutive hours of 100 level courses (or higher) with grades of C or better. If you have 16 hours or more of F grades, you must complete an equal number of hours of 100 level courses (or higher) with grades of C or better. However, once you have completed the course(s), you may petition and ask to take advantage of the Grade Appeal Procedure. Within 10 school days of the grade being made available to the student, the student must notify in writing (email or letter) the faculty member of their disagreement. For more information, please review the Grade Appeal Procedure found in the course catalog.

Question: I got a D in a course. Should I take it over?
Answer: This depends on the course and its importance in your major. If you believe you can do significantly better in the class the second time around and it is necessary for your major or chosen career, it is probably a good idea to retake the course. Both grades will appear on your transcript. However, the higher of the two will count in your GPA. It is also important to remember that many universities do not accept D grades in transfer.

Question: Will my grade point average from other colleges transfer?
Answer: No, your GPA starts over at Morton.

ADULT EDUCATION

Adult Education classes are for students who want to develop basic reading, writing or math skills, earn a high school completion certificate or improve their English language skills. These courses include ABE (Adult Basic Education), ASE (Adult and Secondary Education) and ESL (English as a Second Language).

These classes include bridge programming for basic skills students interested in entering the health care field. The department also offers web-based preparation for the high school completion credential (currently GED® Tests). For more information about these classes, contact the Adult Education Program Support Specialist at ext. 2407.

Project CARE is a free literacy tutoring program for adults. It pairs adult students, whose reading level is below ninth grade or who are learning English, with trained adult volunteers who help students improve their basic skills. This program is funded by the Illinois State Library (ISL), a division of the Office of the Secretary of State. For more information about tutoring assistance or to volunteer to become a tutor, contact Project CARE at ext. 2383.

COMMUNITY PROGRAMMING

In order to better serve adults interested in non-credit classes, Morton College has separated the Community Programming and Outreach schedule from the credit class schedule. For more information about these classes, contact the Adult Education Program Support Specialist at ext. 2281.

For the purposes of compliance with Section 511 of Public Law 101-166 (Stevens Amendment), approximately 36% of the FY ’14 funding for Adult Education came from federal sources. The total amount of federal funding received in FY ’14 was $359,513.
