ACADEMIC ADVISING

REQUIREMENTS FOR DEGREES AND CERTIFICATES
Q: What is the difference between the Associate of Arts or Associate of Science degree and the Associate of Applied Science degree?
A: These degrees all require a minimum of 62 credit hours but have different purposes. The Associate of Applied Science (A.A.S.) degree prepares students for entering a career field (e.g. Law Enforcement, etc...), while the Associate of Arts (A.A.) and Associate of Science (A.S.) degrees satisfy the requirements for the first two years of a baccalaureate degree. Therefore, A.A. and A.S. degrees require a greater number of general education courses.

Q: What is a certificate?
A: A certificate consists of career courses in a chosen program. Students who already have a degree may decide to pursue a certificate when changing fields.

Q: What courses will meet the requirements for a degree or a certificate?
A: The College Catalog lists all requirements for degrees and certificates by program. You must familiarize yourself with the Catalog, since this document is an agreement between you and the College.

Q: How much time will I be expected to study for each course?
A: This varies among individuals. A good suggestion is that students should spend two to three hours outside of class for each hour in class per week. Therefore, a full-time student should allow 24 to 36 hours of study time per week.

ONLINE LEARNING
Q: Does Morton offer courses over the Internet?
A: Yes, several. Visit morton.edu for more information on distance learning opportunities.

Q: How many courses should I take?
A: This can only be answered by the student. In general, students who work full-time may prefer to take fewer classes than students who do not work or work part-time.
FREQUENTLY ASKED QUESTIONS CONT.

time. You need to judge how best to balance your work schedule with your academic load, social life and other responsibilities.

TRANSCRIPTS AND TRANSFERRING COURSES

Q: How much does a Morton transcript evaluation cost?
A: Morton does not charge a fee for evaluating a transcript.

Q: How do I calculate my grade point average (GPA)?
A: Grade points are calculated by multiplying the number of credit hours of each course by the grade earned. (“A”=4, “B”=3, “C”=2, “D”=1 and “F”=0). Divide the grade points earned by the number of hours taken.

Q: How do I raise my GPA?
A: You must earn higher grades in your courses. You may re-take courses in which you have received a low grade. If you re-take a course at Morton College, the higher grade will count in your GPA, but both grades will continue to show on your transcript. In other words, replacing a “D” or “F” grade with an “A”, “B”, or “C” will raise your GPA more quickly than taking new courses.

To achieve academic success:
1. Plan your course load carefully
2. Visit the Individual Learning Center to develop study skills and strategies or when necessary, seek tutoring assistance.

Q: I got a D in a course. Should I take it over?
A: This depends on the course and its importance in your major. If you believe you can do significantly better in the class the second time around and it is necessary for your major or chosen career, it is probably a good idea to retake the course. Both grades will appear on your transcript. However, the higher of the two will count in your GPA. It is also important to remember that many universities do not accept D grades in transfer.

Q: I have taken classes at another college or university. Will they count at Morton?
A: To find out, you must have your transcript evaluated. The evaluation process consists of three steps:
• Have an official sealed transcript mailed to Morton from your former college or university.
• Contact your former college or university’s Registrar Services directly to start the process.
• Complete a Request for Evaluation Form with an Academic Advisor.

Q: I have a degree from a college or university in another country. How will it transfer?
A: To receive credit for coursework from another country, the foreign transcripts must be evaluated by Educational Credential Evaluators (ECE) in Milwaukee, Wisconsin. A form with instructions is available in the Advising Department. Refer to the ECE form for appropriate foreign transcript evaluation fees. Remember to complete a Request for Evaluation Form and list Morton College as the transfer institution.

Q: Will my GPA from other colleges transfer?
A: No, your GPA starts over at Morton.

### Physical Education - Activity Classes

PEC 171, 172, 173, 174, 175, and 176 are all one credit hour open lab classes that are based on the completion of an orientation session, physical fitness hours and a midterm exam. First time enrollees will need to sign up for Physical Fitness (PEC 171) before they can progress through the other courses in the series. All students are required to attend a MANDATORY ORIENTATION SESSION in the Fitness Center, Room 116E during the first week of the course start date. (See page 33 for dates and times). Students in PEC 171 will perform a series of fitness tests (a steptest, sit-up test, strength test, etc.) and therefore should come to orientation dressed in workout clothes and gym shoes.

ADULT EDUCATION

Adult Education classes are for students who want to develop basic reading, writing or math skills, earn a high school equivalency certificate (HSEC), improve their English language skills, or prepare for the United States/Illinois Constitution test or prepare for naturalization. Courses include ABE (Adult Basic Education), ASE (Adult Secondary Education) and English language acquisition (ELA, formerly known as ESL). i-Pathways is another option for eligible students. It is a web-based preparation course for the HSEC tests.

Bridge programming is available for eligible adult education students interested in entering the health care field. This coursework teaches basic skills in the context of the field of health care. Eligible students interested in earning a certificate in Automotive Maintenance and Light Repair will soon be able to participate in a program called I-CAPS (Integrated Career and Academic Preparation Systems).

For more information about adult education programs or the class schedule, contact the Program Support Specialist at ext. 2407.

Another program within the adult education area is Project CARE, an adult literacy tutoring program, which is funded by the Illinois State Library (ISL), a division of the Office of the Secretary of State, using funds designated for literacy. Eligible students for these services are adults whose reading or numeracy skills are below the high school level or adults needing improvement with their English skills. These students are matched with a trained adult volunteer tutor, and there is no charge for this service. For more information about tutoring assistance or to volunteer to become a tutor, contact Project CARE at ext. 2383.

For the purposes of compliance with Section 511 of Public Law 101-166 (Stevens Amendment), approximately 36% of the FY15 funding for Adult Education came from federal sources. The total amount of federal funding received in FY15 was $390,051.
