ACADEMIC ADVISING
PLACEMENT
Q: How can I prepare to take the placement exam?
A: Students can access testing study guides through the “Quick Links” by selecting “Study Guides”. This will link directly to the page where the Accuplacer, Math 075 and Geometry study guides can be downloaded and printed.

Q: How do I know what English and math courses I should take?
A: Students who plan to take credit courses at Morton must take Morton’s placement tests. However, under certain conditions, you can have this requirement waived. For example, if you received a sub-score of 18 in the Reading & English component on your ACT or if you have completed English 101 with a grade of ‘C’ or better at another institution.

Q: If I test into English 082, 084, 086 or 088; can I take other courses?
A: Speak with an advisor to determine which courses, if any, you are able to take in addition to English developmental courses.

FULL-TIME VS PART-TIME
Q: What is the difference between a full-time and part-time course load?
A: Morton defines a full-time load as 12 or more credit hours. A part-time load is anything less than 12 credit hours.

CREDIT HOURS
Q: What is a credit hour?
A: A credit hour, sometimes called a semester hour, refers to the number of credits you receive toward graduation for each class you complete successfully. Credit hours are determined by the number of hours per week you are in class for that course. For example, a class meeting from 9–9:50 a.m. three days a week, generally will earn three credit hours.

REQUIREMENTS FOR DEGREES AND CERTIFICATES
Q: What is the difference between the Associate of Arts or Associate of Science degree and the Associate of Applied Science degree?
A: These degrees all require a minimum of 62 credit hours but have different purposes. The Associate of Applied Science (A.A.S.) degree prepares students for entering a career field (e.g., Law Enforcement, etc.), while the Associate of Arts (A.A.) and Associate of Science (A.S.) degrees satisfy the requirements for the first two years of a baccalaureate degree. Therefore, A.A. and A.S. degrees require a greater number of general education courses.

Q: What is a certificate?
A: A certificate consists of career courses in a chosen program. Students who already have a degree may decide to pursue a certificate when changing fields.

Q: What courses will meet the requirements for a degree or a certificate?
A: The College Catalog lists all requirements for degrees and certificates by program. You must familiarize yourself with the Catalog, since this document is an agreement between you and the College.

Q: How much time will I be expected to study for each course?
A: This varies among individuals. A good suggestion is that students should spend two to three hours outside of class for each hour in class per week. Therefore, a full-time student should allow 24 to 36 hours of study time per week.

ONLINE LEARNING
Q: Does Morton offer courses over the Internet?
A: Yes, several. Visit morton.edu for more information on distance learning opportunities.

Q: How many courses should I take?
A: This can only be answered by the student. In general, students who work full-time may prefer to take fewer classes than students who do not work or work part-
time. You need to judge how best to balance your work schedule with your academic load, social life and other responsibilities.

TRANSCRIPTS AND TRANSFERRING COURSES
Q: How much does a Morton transcript evaluation cost?
A: Morton does not charge a fee for evaluating a transcript.

Q: How do I calculate my grade point average (GPA)?
A: Grade points are calculated by multiplying the number of credit hours of each course by the grade earned. ("A"=4, "B"=3, "C"=2, "D"=1 and "F"=0). Divide the grade points earned by the number of hours taken.

Q: How do I raise my GPA?
A: You must earn higher grades in your courses. You may re-take courses in which you have received a low grade. If you re-take a course at Morton College, the higher grade will count in your GPA, but both grades will continue to show on your transcript. In other words, replacing a “D” or “F” grade with an “A”, “B”, or “C” will raise your GPA more quickly than taking new courses.

To achieve academic success:
1. Plan your course load carefully
2. Visit the Individual Learning Center to develop study skills and strategies or when necessary, seek tutoring assistance.

Q: I got a D in a course. Should I take it over?
A: This depends on the course and its importance in your major. If you believe you can do significantly better in the class the second time around and it is necessary for your major or chosen career, it is probably a good idea to re-take the course. Both grades will appear on your transcript. However, the higher of the two will count in your GPA. It is also important to remember that many universities do not accept D grades in transfer.

Q: I have taken classes at another college or university. Will they count at Morton?
A: To find out, you must have your transcript evaluated. The evaluation process consists of three steps:
• Have an official sealed transcript mailed to Morton from your former college or university.
• Contact your former college or university’s Registrar Services directly to start the process.
• Complete a Request for Evaluation Form with an Academic Advisor.

Q: I have a degree from a college or university in another country. How will it transfer?
A: To receive credit for coursework from another country, the foreign transcripts must be evaluated by Educational Credential Evaluators (ECE) in Milwaukee, Wisconsin. A form with instructions is available in the Advising Department. Refer to the ECE form for appropriate foreign transcript evaluation fees. Remember to complete a Request for Evaluation Form and list Morton College as the transfer institution.

Q: Will my GPA from other colleges transfer?
A: No, your GPA starts over at Morton.

Visit morton.edu for the most up-to-date information.

HERE ARE THE FACTS WHY...

COLLEGE EXPENSES, WHAT’S YOUR PLAN?

Paying for the rising costs of a college education is a concern for nearly every student and family. The fact is, few of us have the resources to simply write a check for the full cost of tuition each semester. So how are you meeting your costs? What’s your plan? Do you have one?

Having a solid plan for covering the cost of college is an important step toward graduation. Morton College is pleased to enlist the services of Nelnet to make the process easier for you.

HERE IS A PROVEN PLAN

To help you meet your educational expenses, Morton College is proud to offer Nelnet as a convenient budget plan. This is not a loan program. You have no debt, there are no interest or finance charges assessed, and there is no credit check. The cost to budget your interest-free monthly payment plan is a $25 per semester nonrefundable Nelnet Enrollment Fee. You may budget your tuition and fees by either Automatic Bank Payment or monthly credit card deduction.

CONVENIENT ONLINE ENROLLMENT

Planning to take ELEMENTARY or INTERMEDIATE ALGEBRA?
You have TWO options!

What are the two options?
Morton Modular Math lets you take developmental algebra as a sequence of 8-week modules instead of the traditional 16-week courses.

There are many ways in which the two options are similar.
Both options:
• Have the same prerequisites.
• Cover the same content (two modular courses cover the same material as one traditional course).
• Move at the same pace (each modular course covers half the material in half the time of a traditional course).
• Prepare you for your next math course.

But shorter courses offer several advantages over traditional courses!
• You will take two short final exams (one every eight weeks) instead of one long final exam at the end of the semester.
• You can succeed sooner by completing your first course in only eight weeks.
• If you are not able to complete a module, you only need to repeat 8 weeks – not 16 weeks – of material.
• If you do not plan to take MAT 105 (College Algebra), you can skip MAT 086 and be ready for college-level math after only 8 weeks of Intermediate Algebra!
• With Morton Modular Math, there's no quicker path to college-level math!

Are there other reasons to consider Morton Modular Math?
• Homework and quizzes will be done online using MyMathLab, providing instant feedback and 24x7 online help.

I'm sold! How do I register for Morton Modular Math?
• Meet with an Academic Advisor or register through the Panther Portal.
• Register for two modules that meet on the same schedule. (Depending on your program of study, some Intermediate Algebra students may only need to register for MAT 085.)
• If you pass the first module, you will continue with the next module during the second-half of the semester. If you do not pass the first module, you can repeat it during the second-half of the semester, schedule permitting. Modules start every 8 weeks.

Physical Education - Activity Classes

PEC 171, 172, 173, 174, 175, and 176 are all one credit hour open lab classes that are based on the completion of an orientation session, physical fitness hours and a midterm exam. First time enrollees will need to sign up for Physical Fitness (PEC 171) before they can progress through the other courses in the series. All students are required to attend a MANDATORY ORIENTATION SESSION in the Fitness Center, Room 116E during the first week of the course start date. (See page 55 for MANDATORY orientation dates and times). Students should stop by the Fitness Center or call (708) 656-8000, Ext. 2274 to sign up for an available time slot before attending. Students in PEC 171 will perform a series of fitness tests (a step test, sit-up test, strength test, etc.) and therefore should come to orientation dressed in workout clothes and gym shoes.
