

PANTHER PATHWAYS

Panther Pathways are built to make it easier for you to stay on track, graduate on time, and get where you're going—whether it's launching your career or transferring to a university—without the guesswork or hassle!

Know Your Path From Day One

With clear course plans, one-on-one advising, and career-focused mentorship, you'll stay on track and avoid wasting time and money.

A Schedule That Works For You

Whether you're a morning person or balancing school with work or family, our day and evening options make it easier to get the classes you need—when you need them.

A Community That's Got Your Back

Each Panther Pathway groups students into a cohort, so you'll share experiences, build connections, and support each other all the way.

Support That Goes The Extra Mile

Panther Pathway students get a dedicated success coach, access to financial aid advisors who understand their program, and even a free MacBook to power their studies.
