**I. PURPOSE**

This articulation agreement is designed to coordinate transfer policies, enhance advising, and promote the acceptance of students transferring from Morton College to Roosevelt University's Honors Program.

**II. ELEMENTS OF THE AGREEMENT**

1. Roosevelt University's Honors Program will accept students who have completed the Honors Program, and/or achieved Phi Theta Kappa status, at Morton College with an overall GPA of 3.25 or higher and an Associates degree earned.

3. Transferring students must meet the same admissions criteria as other students applying for transfer at RU.
4. Once admitted, students are subject to all other policies and procedures, including the residency requirement of RU, as outlined in the RU catalog. Students who have questions may consult a counselor and/or advisor at either institution for assistance.
5. RU will not charge an application fee for transferring Honors and/or Phi Theta Kappa students.

**B. Acceptance and Application of Credits**

1. A total of 120 credit hours are required for completion of the bachelor's degree at Roosevelt University. The maximum amount of transfer credits accepted from Morton College will be equal to 70 credit hours. Under this agreement, all courses will be transferred into one of the bachelor's programs offered by the Colleges at Roosevelt University, subject to each RU program's residency requirements.
2. Students who complete the Honors Program and/or graduate with Phi Theta Kappa status will have 6 fewer semester hours to complete in the RU Honors Program. Instead of the typical 18 semester hours required of students who join RU Honors with 60+ hours earned, Honors/Phi Theta Kappa transfer students under this agreement will have 12 semester hours of Honors coursework to complete at RU (three 3-hour Honors seminars/experiences plus HON 399, the 3-hour Honors Thesis).
3. RU Honors will evaluate Honors courses/credits earned at other institutions. Students seeking credit for these courses must provide the university with official transcripts for evaluation.

**C. Renewable Academic Scholarship for Honors and/or Phi Theta Kappa Students**

1. Transferring Honors and/or Phi Theta Kappa students with an overall GPA of 3.25-3.39 are guaranteed a renewable academic scholarship in the amount of \$13,000. Students must enroll full-time initially, remain a full-time student, and maintain satisfactory academic progress to be eligible for this scholarship.

2. Transferring Honors and/or Phi Theta Kappa students with an overall GPA of 3.4 or higher are guaranteed a renewable academic scholarship in the amount of \$14,000. Students must enroll full-time initially, remain a full-time student, and maintain satisfactory academic progress to be eligible for this scholarship.
3. Transferring students with Phi Theta Kappa status are guaranteed an additional \$1,000 renewable academic scholarship. Students must enroll full-time initially, remain a full-time student, and maintain satisfactory academic progress, to be eligible for this scholarship.

**D. Implementation of the Agreement**

1. Roosevelt University's Honors Program and Morton College Honors and Phi Theta Kappa programs agree to review this agreement annually. Morton College and Roosevelt will designate an individual to serve as liaison for the purposes of monitoring the agreement. Each institution will provide updated catalogs to the other immediately upon their availability. Upon request, RU agrees to provide Morton College reports on enrolled students, their majors and academic performance to the extent permitted by law.
2. RU and Morton College agree to assist each other in promoting this agreement appropriately in their respective promotional materials, events, web sites, and reports.
3. RU, in collaboration with Morton College, will provide Morton College Honors and Phi Theta Kappa programs with student-friendly transfer guides/4 year pathways that illustrate transferability of Morton College coursework.
4. This agreement may be amended as necessary, for specific program articulation without affecting the master agreement.
5. This agreement will remain in effect until terminated by either party or ninety days prior written notice. In the event that this agreement is terminated, the terms of the agreement contained herein will remain in effect for the maximum transitional period of two years to accommodate students already enrolled under the agreement.

**REQUEST FOR BOARD ACTION**

**PROPOSED ACTION:** THAT THE BOARD APPROVE THE ADDITION OF MATERIAL FEES (IN APPROPRIATE COURSES) BETWEEN \$10 UP TO A MAXIMUM OF \$150 PER INDIVIDUAL COURSE UNTIL SPRING 2021

**RATIONALE:**

The College will participate in the Pearson Inclusive Access Program. This program allows the College to charge students directly for course material fees to lower per unit textbook costs for students. The fees assessed by the College will pay for the students' course materials. The Pearson Inclusive Access Program (which corresponds to the Follett IncludED Program) supports student success by ensuring all students receive course materials at the onset of class, and that they do so at reduced prices.

**COST ANALYSIS:**

This Board Action is revenue neutral for the College. Students will pay at least twenty-percent less than they would have otherwise paid for traditional digital packages.

SmartCatalog IQ harnesses the power of content management technology in an easy-to-use application that has been configured for academic content. The system is based on a central data repository which creates permanent relationships between courses and program tables.

### ***Easy Editing***

Users login to IQ through any web browser. They may only edit items which they have been permitted to change. Editing is as simple as highlight-and-type. All changes are automatically tracked, and IQ maintains a detailed edit history with date, time and user stamps for each editing event.

### ***Automatic Workflows***

As soon as editors submit their changes, workflow routes the content to the first designated reviewer. Workflows are customized for the institution and you may use several workflows to capture divisional processes. Email notifications are sent to reviewers as items require their attention.

In IQ, your campus processes are replicated electronically to keep the approval process moving forward and deadlines on track.

### ***Integration with Student Information Systems (SIS)***

IQ integrates with all major SIS's as well as home-grown systems. You may import courses from the SIS to the catalog using IQ's **Integrated Import Tool** or employ **Application Programming Interfaces (APIs)** for round-trip integrations. Some of our clients even export automatically to their SIS on a nightly basis! We work with your campus IT team to create and test the approach of your choice during implementation.

### ***Reporting***

User reports, item reports, accuracy reports and more keep you up to date on what's going on with editors and lets you know if catalog content is consistent with the student information system.

### ***Online Catalogs***

Web Catalogs from IQ are ADA compliant and built using *Responsive Design* techniques—they are optimized for all devices. The online catalog will match your institutional branding for a seamless user experience and be fully searchable. Courses which are listed in any program requirement tables expand to display the full description.

Your academic catalog is no longer just a list of courses, programs and policies—it's one of the most visited areas of your website by prospective and current students.

Easily create, organize and publish interactive course information in real-time with the DIGARC Acalog academic catalog management system. It gives you flexible tools to turn your catalog into a destination—not just a publication. In a 2017 client survey, Acalog users reported a 90% average increase in student engagement and a 75% reduction in the time it took to produce their catalog.

### ***Engineered differently***

You asked and we answered, with a robust, flexible tool for managing catalog data. After DIGARC transitions your first catalog into our academic catalog management system, it's easy to make changes on your own from an intuitive dashboard, instead of returning to us every step of the way. That's why it's now used by nearly 600 colleges and universities — more than all our competitors combined.

### ***Never publish an outdated catalog***

Make a change in one location and it's updated everywhere, eliminating weeks of tedious work chasing edits and checking for continuity across catalogs. Manage stakeholder edits, request approvals and publish catalogs in real time from an intuitive, easy-to-use interface. Keep fully functional and searchable prior catalogs archived for future reference along with your current catalog.

### ***Easy implementation and fast ROI***

Experienced 7-plus member implementation team dedicated to your project start-to-finish, not a revolving door of staff unfamiliar with your unique needs. Short 3-4 month catalog implementation process, unlike other solutions that take 6-12 months to implement and make you return for ongoing support.

### ***Engage students with interactive, feature-rich catalogs***

Offer the modern experience students expect with photos, videos and other rich media. Help students stay on track and graduate on time or transfer with Printable Degree Planners and guided pathways information that stays within archived catalogs. Empower students to share their interests with friends, parents, administrators and advisors with social media capabilities and individual course portfolios.

***Ensure data consistency with seamless integration***

Embed your catalog into other websites and sync it with campus systems so there's a single source of truth across departments, campuses, SIS and anywhere else course information is referenced. Acalog integrates with Curriculog, so the most current curriculum is always available for publishing without manual effort to import or input.

## **CourseLeaf - CAT**

**5-7 month boot up. CourseLeaf Catalog (CAT) module would be \$42,940-48,980 for first year and \$8,580 - 12,580 annually thereafter (Includes on-site training).**

With CourseLeaf Catalog (CAT), reinvent the way you manage and publish your institution's academic catalog. CAT takes your catalog online with intuitive tools for editing content, managing workflows and publishing to web, mobile, tablet and print PDF platforms.

More than [200 leading colleges and universities](#) use CourseLeaf's catalog management solution and the result is an accurate, dynamic and searchable academic catalog website that meets modern web standards while matching the style and graphics of each institution. With a 100% client retention, CourseLeaf is committed to the success of your institution and tailors or customizes CAT to fit your critical needs.

With CAT, your catalog will engage your key audiences with an accurate reflection of your institution's courses and programs. Students can search for relevant courses, faculty can easily update course and program information, staff can quickly approve updates and edits and prospective students are engaged by the catalog's intuitive navigation and design. Some of our clients have reported a 35 percent increase in online catalog views since implementing CAT. CourseLeaf published catalogs are viewed by more than 2 million current and prospective students each year.

### ***Custom-Fit***

Your institution needs more than an out-of-the-box academic content management system that can't be customized. CourseLeaf is the only solution that offers a wide range of tailoring to fit the unique qualities of each institution. Each college and university has different critical needs and with CourseLeaf those needs are met to ensure that each catalog is a success.

### ***Tight Integration***

Matching your catalog with your student information system (SIS) is important for ensuring accuracy and keeping up with accreditation guidelines. CAT integrates with your SIS to ensure all course and program information is accurate and consistent. Errors in the catalog are collected in an accuracy report and flagged so that a staff member can properly reconcile. CAT eliminates the need for duplicate data entry as users are able to update the catalog and SIS data at the same time. CAT also integrates with your existing campus authentication systems, so that users can continue to use their existing account names and passwords in a single sign on, SSO, without having to create a new log in.

### ***Manageable Workflow***

CAT allows your institution to maintain central control of the catalog management process while decentralizing edits to individual departments. Automate your review and approval workflow to manage who participates in content creation, when they participate and how they participate. CAT's workflow engine ensures that the appropriate people are involved with each

section or subsection of the catalog. Status reports let you stay on top of the process to meet your deadlines and email notifications can be set up to let the right person know when they have actions to take in the catalog. CAT will also track, log and archive all changes made to the catalog for a comprehensive audit trail.

### ***Intuitive Interface***

CourseLeaf software combines a powerful academic content management system (CMS) with relational database structures to provide efficient data management and publishing to multiple platforms. CAT's online interface provides intuitive editing and updating tools that allow all members within a department to contribute to the catalog management process. The CAT interface also allows for the editing of multiple catalogs, with different elements in each catalog, in one location.

### **Fast Publishing**

Give current and prospective students the information they need in a format that fits their needs. CAT easily publishes to web, mobile and tablet platforms with responsive web design that will allow your academic catalog website to be viewed on any size screen. CAT generates a fully formatted and print ready PDF from any page in the catalog with a single click. Photos and videos can be added to the catalog and photos can be added to the PDF template for an engaging look and feel. The catalog can also be integrated with social media so that students can share information to others in their network. Catalog content is search engine optimized and features advanced search capabilities within the catalog so that important content can be found quickly.
