

BATTERY, STARTING, AND CHARGING CERTIFICATION

The successful completion of the **Snap-on Battery, Starting, and Charging Certification** enables graduates to demonstrate a solid understanding of battery, starting, and charging diagnostics, jump-starting tools and service equipment. The skills acquired during this comprehensive training are valuable **TOOLS FOR LIFE** that can lead to rewarding careers in a vast array of industries in the global marketplace.

Snap-on and NC3 combined their industrial experience and expertise to create a certification that includes hands-on training using tools fundamental to transportation careers. Those who earn this certification will be proficient in the use of charging, jumping and testing equipment as well as the safety measures required for this fundamental skill.

COURSE CONTENT INCLUDES:

- Identification and safe operation of starting and charging equipment
- Obtaining and interpreting accurate battery system data
- Tool and equipment care and maintenance
- Types and classifications of batteries
- Battery construction and operation
- Battery maintenance

BUILDING TOOLS FOR LIFE

Snap-on certifications provide a return on technical education investment through hands-on training and state of the art tools and equipment. The **Snap-on Battery, Starting, and Charging Certification** relates directly to the following academic subject areas, including:

- Automotive and Diesel Transportation Technology
- DC Electrical Circuitry

Students earn Snap-on certifications as proof of achievement. These NC3 stackable credentials increase employment potential and on-the-job productivity in industries such as:

- Recreational Vehicles
- General Automotive
- Light-duty Diesel
