BACKGROUND

Morton Community College District No. 527 was established on September 5, 1924 and provides baccalaureate-oriented, career-oriented and continuing education courses to a six-suburb community. The District is located approximately 12 miles west of downtown Chicago, Illinois with a viable transportation network including I-290 (Eisenhower Expressway) and I-55 (Stevenson Expressway) just to the north and south, respectively, Metra's Burlington Northern and the Chicago Transit Authority. The Board of Trustees, which is elected by residents within the District, is the District's ruling body that establishes the policies and procedures by which the College is governed.

This District is known for its academic excellence, dedicated teaching, small classes, friendly atmosphere, personalized learning and affordability. The College offers educational programs and support services to students at an affordable cost. The programs and services offered by the College prepare students for an education that leads to a bachelor's degree, job entry and career advancement and developmental education. The College also provides opportunities for lifelong learning and develops and conducts programs and activities that enhance the cultural, civic and economic life of the community.

The College serves approximately 160,000 residents of the District, which encompasses the communities of Berwyn, Cicero, Forest View, Lyons, McCook and Stickney. The 37.12-acre campus contains five buildings with state of the art classrooms and science laboratories, a brand new planetarium, a renovated 350-seat theatre, 50,000-piece library, a 1,000-seat gymnasium and a physical fitness center.

MAJOR TRENDS

Morton College recognizes the influence of a dynamic community and environment. Following are major trends and issues anticipated over the next five years that will play a critical role in the institution's planning processes:

- Demographic:
 - The College's service area is expected to remain the same in population similar to Cook County. According to EMSI Economic Modeling, Cook County has remained relatively stable in total population between 2011 and 2018. In that time period, population declined by 0.1% (6,405 residents). District 527 represents 6 communities within Cook County. District 527 showed a population decline of 1.0% (1,619 residents).
 - The population of Cook County and District 527 is increasing in age.
 - For District 527, the 65 to 69 years age category shows the sharpest increase from 2011 to 2018 with a 53% jump. The number of 15 to 19 years old residents, who are preparing to enter college-age, decreased 5% between 2011 and 2018.
 - For Cook County, the 65 to 69 years age category shows the sharpest increase from 2011 to 2018 with a 33% jump. The largest decrease in population came from 15 to 19 years old residents, who are preparing to enter college-age, who decreased in number by 11%.
 - Between 2011 and 2018, District 527 increased in Hispanic population by 5%. In 2018, 74% of the population was Hispanic. In the same time period, Cook County's Hispanic population increased by 6% to reach 26% in 2018.
- Technological:
 - The evolution of technology will continue affording an increasingly diverse array of web- and computer-based tools that can be employed towards increasing student learning and student success.
 - Online and mobile modes of learning will become increasingly expected by students.
 - The capacity for technology to enhance non-teaching functions will increase dramatically.
- Educational:
 - Changes to the College curriculum are expected due to changing demographics, advances being made in technology and dynamic economic conditions.
 - Continued demand for serving students with limited English language proficiency is anticipated.
 - Innovation in delivery of developmental education will be pursued, towards a more effective method of meeting student needs.
 - Collaborative initiatives with district K-12 institutions, as well as 4-year institutions of higher education, will continue to be developed.
 - Increase online course offerings

- Financial:
 - The state funding is expected to remain stable.
 - Increased costs due to aging buildings, infrastructure, and necessary site improvements are anticipated.
 - The College will continue to assess its position among peer institutions trending towards increased tuition.
 - Due to the Coronavirus disease (COVID-19) we expect enrollment to continue to be affected. It will take a couple of years for enrollment to reach pre-COVID19 numbers.
 - The College has received Higher Education Emergency Relief Funds (HEERF) from the Department of Education

- Political:
 - Legislation affecting pension reform that will increase amounts that will be paid by the College on behalf of their employees is anticipated.
 - Increased competition for government funds is expected to continue.

FUTURE OUTLOOK

The Morton community has undergone profound changes in the last 20 years, including an increase in its Latino population from 6.6% to 81% since 1980. As this shift made Morton College the largest Latino-serving public college or university in the Midwest, a review of the mission was necessary in order to serve the college's "new" community. To enable the necessary changes to the mission, a Blue Ribbon panel of citizens from diverse backgrounds and expertise was appointed and charged with researching how Morton College could meet the community's needs so that Morton College, once again, could distinguish itself by its sense of purpose — a College that understands and changes to meet the needs of its community, now and in the future — a college that embraces collaboration among and between all stakeholders.

The College's Enterprise Resource Planning (ERP) system has enabled them to centrally aggregate data, both academic and financial, in a secure repository. The system has improved the effectiveness and efficiency of information management, which is critical to the success of Morton College. Further, the ability to securely store, internally share and analyze information is critical for Morton College to meet the needs of the communities it serves. This has improved every aspect of our service to the community. Examples include:

- Provide a secure portal for remote access over the internet:
 - Student access to schedules, grades, class or semester registration, add or drop courses, grades and transcripts.
 - Faculty access to class rosters, course and schedule information, class-teaching assignments, grades, and student information within restrictions.
- Provide staff better access to information at the college to improve service to students, faculty and the community – and do it more timely and efficiently.
- Provide a single source of reliable data, eliminating the need for multiple auxiliary systems to store information. Currently, multiple systems require manual updating to add or correct information.

- Allow the College to better forecast and target market efforts to grow the services available to our community.
- Provide the ability to track and audit data to ensure its accuracy and security.

These and other benefits of the Enterprise Resource Planning System have improved the quality of service Morton College provides to our community while lowering our costs of service.

VISION AND MISSION

The District's Vision Statement:

Our Vision is to be the leader in educational institutions in the delivery of quality academic and workforce development programs that enhance the quality of life for the towns of Berwyn, Cicero, Forest View, Lyons, McCook and Stickney. Our Vision-Goal is to increase fall-to-fall full-time persistence rates to 80% by the year 2022.

The District's Mission Statement:
