STRATEGIC PLANNING PROCESS

Strategic planning at Morton College is an integrated, systemic process involving all College stakeholders. In an effort to keep the Strategic Plan active, effective, and relevant, the College Council—comprised of faculty, staff, and administrators—will also periodically revise, update, and consolidate major goal areas of the plan in response to internal and external environmental factors impacting the strategic direction of the College. The College Council has primary oversight of the planning process. The Board of Trustees, representing the community served by the College, holds an annual retreat with the president of the College to discuss major goals and priorities.

The ongoing strategic planning process is facilitated internally by the College Council. Operational and academic departments respectively develop Support Unit Assessment Plans (SUAP) and Academic Unit Assessment Plans based on the college-wide strategic plan and that link planning and assessment.

The operational planning process is completed in advance of the budget development cycle in the spring of each year and any new initiatives identified in the planning process requiring funding are considered during the budget development process.

**ADDITIONAL CONSIDERATIONS FOR STRATEGIC PLAN UPDATES**

To obtain a better picture of the status of the College, MC should periodically engage in a SWOT analysis (Strengths, Weaknesses, Opportunities, and Threats) to better analyze certain internal and external factors that frame the planning environment and to identify key issues that should be considered in developing and updating the Strategic Plan.

The College, like most community colleges, faces strong headwinds from many different sources, including economic, public funding, demographics, accreditation/compliance, and student engagement. A few of these are summarized below with related implications that should be considered as Morton College continues to develop its operational plans.

### Threats
- The number of people in the traditional (age 18-24) student demographic is declining by 4-6% over the next decade
- Students age 24 and older are often already in the workforce and continue to seek education that they can balance with their other life commitments
- Students’ capacity to pay (especially double tuition for non-sponsors)
- Continued poor perception of community colleges as a viable option toward a 4-year degree
- MC losing students to enrollment and transfers to other local community college options

### Morton College Solution
- Enhance strategies to improve high school yield rates (market share) and target underserved populations
- Enhance opportunities for access by working adults (scheduling, locations, services, online options)
- Increase financial aid participation
- Increase public recognition of community college value, especially for addressing workforce shortages
- Increase the current number of articulation agreements with area 4-year colleges

### Measurable Outcomes
- Document all new course and program offerings with AY that demonstrate an intentional response to workforce demands
- Document opportunities created to make education to adults aged 24+ more accessible
- Document improvement in financial aid participation
- Document all communication pieces targeted to prospectives with MC response to workforce shortages
- List new articulation agreements through SP period and document a more streamlined and practical pathway for students to ensure a smooth transition into 4-year degree program

## Measurable Outcomes

- Morton College will realize an increased year-to-year enrollment, document over 5-year period SP period
- Document development of new course and program offerings that coincide with workforce demands
- 3 new formal partnerships/deals
- List new dual enrollment offerings and with which schools with AY implemented

## Morton College Solution

- Ensure marketing campaigns and communications consistently promote the quality and value of a Morton College education
- Position Morton College as the “go to” place for well-designed, customized workforce skills delivery
- Pursue and manage current relationships with intentionality to make sure outcomes are win-win
- Expand Dual Enrollment programs and explore/identify other potential schools beyond Morton East/West (included in Strategic Enrollment Management Plan)

## Opportunities

- Increasing public recognition of community college value, especially for addressing workforce shortages.
- Local employers demanding trained workforce (see attached Labor Market Data for Cook County)
- Partnerships with existing local businesses
- Expansion of Dual Enrollment

- Document development of new course and program offerings that coincide with workforce demands

- Local employers demanding trained workforce (see attached Labor Market Data for Cook County)
