Advising Mission Statement

Academic Advising employs a student-centered approach to serve our diverse population by supporting and empowering lifelong learning.

Welcome to Morton College!

At Morton College, our student success coaches will partner with you and help your transition into college by: (a) ensuring that your career- objective is aligned to your interests, strengths, ability, and passion; (b) help you develop your educational plan and (c) align your plan to your career objective. In addition, you and your student success coach will review your academic performance, monitor your academic class load and course selection to ensure your progress toward graduation.

**Students with disabilities are entitled to receive individualized services and/ or accommodations intended to assure you will have an equal opportunity to earn your degree.*

Resource Materials: Program worksheet, College Catalog, Student Handbook, Panther Portal.

Responsibilities in a Student- Success Coach Partnership:

Expectations for Students: As a student, you are expected to...

1. Take the English and Math placement test if you are pursuing a degree or certificate.
2. Schedule and keep routine advising appointments each semester.
3. Be prepared for advising sessions by researching degree requirements, prerequisites, co-requisites and transfer information.
4. Actively participate in advising by asking questions and sharing to clarify goals.
5. Follow through on advising recommendations in a timely way.

Expectations for Coaches: As a Coach, I will...

1. Be knowledgeable about programs, graduation requirements, policies, and procedures.
2. Encourage and guide students to develop and pursue their goals and create an academic plan.
3. Refer students to appropriate campus resources.
4. Be accessible via phone, email, and by appointment and respond to students in a timely way.
5. Recommend appropriate classes and other tools or resources to assist students in course selection and registration.

Please understand, the student success coaches do not make decisions for you. Student success coaches provide you with the most accurate information available to them, and they work with you to create a realistic plan to accomplish your educational and career goals. However, the educational choices you make are yours and the responsibility for knowing your degree requirements and fulfilling them in a timely and successful manner rests with you.
