5. Reports

5.1 Student Trustee – Eliana Ruiz

Eliana Ruiz introduced herself and shared her background. She is currently pursuing an Associate's degree with plans to become an elementary school teacher. Eliana is active in Student Government, Phi Theta Kappa, and STEM Club. Her priority for the year is the creation of a community garden, the re-establishment of the Morton College merchandise store, and advancing campus sustainability. Eliana also reported on Welcome Week and student engagement activities like the successful New Student Orientation (NSO) with strong participation, guided introductions to key campus resources, including the gym, library, tutoring center, and student union. The CCE has also been making its presence felt through tabling events and student conversations. Eliana also highlighted the thriving Summer Bridge Program, fostering academic and social connections before the fall semester. Overall, the college community has begun the 2024–2025 academic year with strong momentum, energy, and student involvement.

6. President's Report

Dr. McLaughlin welcomed the trustees back following the summer recess, noting the favorable weather and opportunities for relaxation. He announced that budget highlights for FY26 would be reviewed later in the meeting before the Board's formal action.

Dr. McLaughlin introduced Micheal Kott to report on his International Exchange Program in Costa Rica over the summer.

Micheal Kott reported on the Costa Rican Language, Culture, and History Program conducted in June. The program hosted 18 students from Illinois; students lived with host families in San José, attended the Costa Rican Language Academy, and participated in cultural activities including cooking, dance, and weekend excursions. Educational excursions included visits to volcanoes, waterfalls, and the Costa Rican National Museum. Students received credit equivalent to two semester courses. He noted Costa Rica's unique history, including the abolition of its army in 1948 and reinvestment of funds into education. Micheal expressed gratitude to the Board for support and presented a photo gift. Additionally, he reported on theater program success: last year's *City of Angels* production involved 21 cast and crew, with more than half being students – a first in his 18 years.

President McLaughlin thanked Mr. Kott for his leadership and contributions.

Dr. McLaughlin also paused to extend a welcome to our new student trustee. They look forward to working with Eliana this year and thanked her for taking on this leadership role and for really being the voice of students. And so, they want to make sure they're responsive to what she brings forward to the board in terms of priorities and what's important to the students.

Dr. McLaughlin invited Dr. Sheldon Walcher, Vice President of Academic Affairs, with support from Jamar Orr, Dean of Student Services, to talk about our enrollment report and a CRM Proposal.

Dr. Sheldon Walcher started out by giving a quick enrollment update. Overall enrollment increased by 6% in headcount and 5% in credit hours over the prior year. Despite a mid-summer 25% decline, final enrollment exceeded expectations. Adult Education programs (GED, ESL, ABE) showed strong growth under the leadership of program directors Laurie Cashman and Claudia Mosqueda.

Dr. Walcher stated that findings from last year's CampusWorks audit identified the lack of a Customer Relationship Management (CRM) system as the College's most significant gap. The current processes are fragmented, manual, and dependent on spreadsheets and email, leading to long wait times, inefficiencies, and staff burnout. We are recommending the adoption of Element451, an AI-driven student engagement platform already used by over 300 institutions, including Harper College and Heartland Community College.

The system capabilities include:

- Automated, personalized communication via email, text, and phone.
- Recruitment and admissions management.
- Data integration for campaign effectiveness and student tracking.

- Engagement and success modules for current students, including proactive outreach to re-engage students at risk.

The implementation plan:

- Phase 1 (Year 1): Marketing and Admissions modules.
- Phase 2 (Year 2): Engagement and Success modules.

Projected outcomes:

- Average 7% enrollment increase.
- 75% reduction in staff time spent on manual communications.
- 200% ROI over five years, with \$1.5M projected additional tuition revenue.
- Elimination of redundant systems (e.g., texting platforms).

Jarmar Orr emphasized that while enrollment has grown by 6%, the college likely lost additional students during this cycle—those who reached out by phone or email, or who visited but left due to long wait times or other barriers. He noted that with the right tools in place to better address students' needs, enrollment gains could have reached closer to 10%. While appreciative of the current increase, he stressed the importance of planning not only for immediate improvements but also for long-term growth over the next 5–10 years, ensuring the college maximizes opportunities with students who are already interested in attending.

Trustee Hernandez inquired whether staff positions would be affected.

Dr. Walcher confirmed that there would be no job reductions.

Dr. McLaughlin explained that marketing has shifted with technology, making traditional methods like radio, TV, and billboards less effective. He noted that retaining students who have already applied is the most efficient strategy, yet many applicants never move forward to enrollment, creating high attrition. The proposed system would help address this gap by converting applicants into enrolled students, thereby strengthening retention and enrollment outcomes.

Trustee Montiel raised concerns regarding over-automation and communication overload.

Dr. Walcher assured them that the system allows for personalization and opt-out options.

Trustees asked whether the decision could be deferred to September for further review. Administration responded that the system had been thoroughly vetted through CampusWorks focus groups and internal review, but additional information could be provided if the Board preferred to delay.

Trustee Reitz emphasized that the important thing is that the proposal had been thoroughly vetted and commended staff for their work. Dr. McLaughlin thanked the team for their efforts and noted that the college had benchmarked the system against similar institutions.

Dr. McLaughlin provided an update on campus perimeter renovations, noting visible progress over the summer and inviting trustees to view the work in the courtyard. Major construction is expected to be completed by October, with landscaping and new signage to follow. Trustee Hernandez encouraged the use of local businesses for landscaping projects. Joe Florio, Executive

Director of Facilities Management and Police, explained that as a Capital Development Board project, bidding and subcontracting are managed at the state level, though efforts are made to promote neighborhood participation.

Additional discussion included the installation of a new sprinkler system. Trustee Reitz emphasized support for future landscaping and potential integration with the proposed community garden.

Dr. McLaughlin then highlighted upcoming policy audits in preparation for the Higher Learning Commission reaffirmation visit.

A budget overview was presented, emphasizing strategic investments in technology upgrades to modernize operations, improve efficiency, and enhance student experience. The budget reflects conservative spending while also addressing salary and benefit increases negotiated through collective bargaining agreements.

Trustee Hernandez commended the administration for maintaining a balanced budget and stressed the importance of supporting competitive salaries. Dr. McLaughlin confirmed that compensation adjustments will be addressed in the September personnel actions.

Dr. McLaughlin concluded his report by noting future capital project requests submitted to the state, including a proposed new \$10 million facility that we think would be a significant addition to the college, perhaps on the rocket property in the future.

MORTON COLLEGE BOARD OF TRUSTEES REQUEST FOR BOARD ACTION

PROPOSED ACTION: We are seeking board approval to allocate \$77,600 for the replacement of outdated refrigeration units in the HVAC program with modern Copeland Trainer Units. This investment directly supports our commitment to delivering high-quality, industry-aligned technical education. This purchase would come out of the Perkins Grant as well as the Institutional Budget.

RATIONALE: The new Copeland trainers will enhance hands-on instruction by providing advanced, real-world training scenarios that better prepare students for current workforce demands. In addition, these units are aligned with NC3 (National Coalition of Certification Centers) standards, allowing students to earn nationally recognized certifications that improve their employability and career readiness. Replacing the current outdated units also ensures our equipment reflects modern industry practices, helping us maintain a relevant and safe learning environment.

This purchase represents a strategic investment in both student success and program quality. By aligning our instructional resources with industry standards, we strengthen our program's credibility and outcomes.

COST ANALYSIS: \$77,600

RE: NC3 Certification Sole Source Letter

To Whom It May Concern:

This letter is in reference to the equipment and training required by the National Coalition of Certification Centers ("NC3") for implementation of its broad array of industry-driven certifications including: Snap-on Diagnostics, Multimeter, Torque, Hand Tool Identification, Safety, & Usage, Battery, Starting, & Charging, Electrical Circuits, and Tire Pressure Monitor, Building Performance, Horticulture, Safety, and Wheel Service Certifications, Starrett Precision Measurement Certifications, Trane Building Automation Systems, Residential HVAC, Data Analytics, Generative AI, and Sustainability Certifications, Festo Advanced Manufacturing and Mechatronic Certifications, 3M Safety Certifications, Lincoln Electric Welding Certifications, Greenlee Building Trades and Electrical Certifications, RIDGID plumbing certifications, Copeland HVAC/R Compressor Certifications, Thermo King Transport Refrigeration Certifications, Daniel Manufacturing Corporation Precision Termination and Safe-T-Cable Certifications, Tormach CNC and Milling, Palmer Hamilton and Dremel STEM Certifications, Kubota Tech Program and Certifications, and App Development with Swift Programming.

The National Coalition of Certification Centers, ("NC3") is the sole source for the instructor professional development and training and curriculum associated with each of its skills certifications. No other organization can provide any of the training or related equipment (supplied exclusively by industry partners) necessary to implement these nationally standardized certifications.

NC3 sets the industry standard in providing the "Train-the-Trainer" programs that enable educational institutions to provide turn-key, nationally recognized certification programs. These stackable third-party certifications are issued through NC3, which also oversees the training, curriculum, and required equipment and ensures that the programs meet nationally recognized standards. The training, curriculum and kits included in this package are required material for instructors and students seeking NC3 certification, with each element designed to work in conjunction with each other.

If you have further questions regarding NC3 Certification training or equipment, please do not hesitate to contact me. We are proud to partner with hundreds of leading educational institutions around the country, and we are looking forward to working with your institution to make NC3 Certification implementation a success.

Letter of Recommendation for Contract Award

Dear Joe:

On Friday, September 5, 2025 10:00 AM, bids were received for the above referenced project at Morton College business office. During the 3-week bidding period prior to this date, a total of 31 contractors became Bidders of Record and twelve (12) submitted sealed bids. The bid opening was conducted by Legat Architects and Morton College and witnessed by fifteen attendees. Refer to the attached Bid Tabulation.

Three of the twelve bids received are below the total available budget of \$353,886 (\$321,886 Estimate for Construction + Bid Contingency of \$32,000. May 23, 2025 estimate)

We reviewed the qualifications and references of the low bidder for the base bid, Lo Destro Construction Company. Legat Architects did not find any concerns or other evidence which would disqualify Lo Destro Construction Company from being awarded the contract for all work. LoDestro completed a similar project for Morton College in 2024 for the Anatomy Lab project. We performed a scope review with LoDestro and confirmed they understand and have included all scope for the base bid and alternates.

The second low bidder for base bid (Bee Liner Lean Services \$296,650) submitted a bid with an alternate #1 price of \$7,000. The cost of Alternate #1 for the other 11 bidders ranged from \$57,000 to \$117,000. We confirmed the material costs with the casework manufacturer. Clearly the \$7,000 alternate bid could not cover the material costs. We believe the \$7,000 is a bidder mistake. It would not be in the interest of Morton College to consider accepting this alternate with this mistake. We consider this low cost for the alternate as non-responsive. It would likely cause problems executing the project.

We also reviewed the requested 5 similar projects submitted by the second low contractor. Of the 13 projects submitted, only one project (completed at Morton College) is similar to the project bid. We understand subcontractors on that project had difficulties working with Bee Liner. Legat Architects has worked with Bee Liner on two projects. Both projects were managed poorly by Bee Liner. Owners for those projects indicated they would not work with Bee Liner again. Please refer to the past letter of recommendation Legat wrote for the Morton A&P Lab

In addition to the Base Bid, Bidders were required to identify the amounts for two alternate bids. After consultation with you regarding the selection of alternates, Legat Architects recommends Morton College consider accepting Alternate #1 for \$66,500 if the college's budget can support base bid and alternate.

We recommend the college award Alternate #2 later during construction utilizing the construction contingency.

Alternate Bid Number 1: Additional casework and adjacent work including floor finishing, plumbing, electrical, and other associated work. (LoDestro price of \$66,500)

Alternate Bid Number 2: Replace 2x4 ACT ceiling tiles with new 2x2 ACT ceiling tiles and matching cross bars. (LoDestro price \$26,250)

Legat Architects, therefore, recommends Morton College consider awarding the Contract for Construction, inclusive of the base bid proposal \$280,000 and alternate number 1 for \$66,500 for a total contract amount of \$346,500 to:

**Lo Destro Construction Company
211 E. Ontario, Suite 500
Chicago, IL 60611

All work is to be substantially complete by February 27, 2026, per section 01 10 00 Project Summary schedule.

If you have any questions regarding the bidding of the Morton College Microbiology Lab project please do not hesitate to call. On behalf of Legat Architects, I look forward to working with Morton College toward the successful completion of this project.

Thank you.

MORTON COLLEGE BOARD POLICY

Illinois Community College District No. 527

TITLE: College Business Travel

NO. 1.8

SECTION: Board of Trustees

PAGE: 1 of 2

The Board recognizes that it is important and necessary for the welfare and governance of the College that all Trustees engage in educational and trustee development opportunities and serve as advocates for community colleges and Morton College on local, state, and national levels. A Trustee may be required to travel or incur expenses in the conduct of college business, including participation at meetings or conferences of benefit to the College. Therefore, it is the policy of the board to encourage its members to travel for purposes of further education and experience when such travel will prove to be of benefit to the College and is related to the College's mission, vision, and goals, as well as its governance. The board further acknowledges that the need for Trustee education and advocacy must be balanced with fiscal responsibility. To these ends, the Board has developed this Trustee Travel Policy.

All overnight, and/or out-of-state travel, and/or in-state travel that exceeds a 100-mile radius from the College by a Trustee must be pre-approved by the Board at a Board meeting held in advance of the anticipated travel. In the event pre-approval is not possible due to an emergency or exigent circumstances, the traveling Trustee must obtain the pre-approval of the Board Chair and College President, except in the case of the Board Chair, who must obtain the pre-approval of the Vice Chair and College President.

Notwithstanding anything contained herein, attendance by a Trustee at Regular, Special, and Committee Meetings of the Illinois Community College Trustees Association has tacit approval of the Board on an on-going basis if held within a 200-mile radius from Morton College and does not involve more than one overnight. Even attendance at a Regular, Special, and Committee Meetings of the Illinois Community College Trustees Association outside of a 200-mile radius from Morton College and/or involving more than one overnight requires pre-approval by the Board.

All arrangements for travel and conference expenses shall be made through the Board Liaison or the President's Office. The Board Liaison or the President's Office will receive reimbursement documents from Trustees for conformity and processing.

Reimbursement for appropriate expenses incurred is subject to the conditions specified in Board Policy 8.3, Reimbursement for Travel Expenses, except as set forth herein:

Any travel advance (assuming the travel itself has been pre-approved) must be pre-approved by the Board Chair, except in the case of the Board Chair, who shall obtain the pre-approval
